

Sinclair Broadcast
Group's actions with
the "Stolen Honor"
plans and refusal to
honor the Iraqi war
casualties
illustrate quite
clearly the problems
of media
consolidation.

Sinclair has tried
to hide the human
cost of this war of
choice in Iraq and
are using their 62
stations as a forum
to broadcast a Swift
Boat style attack
against John Kerry.

There are no plans
to televise
"Chickenhawks:
Cowardly Warmongers
in the White House".

Their brazen,
arrogant actions
should be a wakeup
call for us to
protect our media
access from
interference from
both the political
Right and Left.
